ADDITIONAL INFORMATION:

Supply any additional information as requested by the Division related to:

- (a) Permit stipulations (status).
- (b) Other special conditions (status).

The original mine plan and maps submitted by the mine owners, Harold and Jerry Prestwich have not been changed to this time. Future operations at the mine will be determined by mineral market conditions. A proposed future activity (to comply with annual assessment work requirements) will be minimal, and in accordance with the original plan.

The only mine activity in the last two years has been the required assessment work. No ore has been shipped during that time.
